**Alliance Sensors Group and AIM Electronics  
Have Partnered to Distribute ASG's Linear Position Sensors**

Moorestown, New Jersey, June 19, 2017...[H. G. Schaevitz LLC dba Alliance Sensors Group](http://www.alliancesensors.com) is pleased to announce a partnership with AIM Electronics in Levittown, PA to distribute its line of LVDT and LVIT linear position sensors designed for automation, power generation, fluid/mobile hydraulics, and heavy industrial applications with sensors and instrumentation made specifically for the power generation marketplace. AIM Electronics was founded in 1985 as a single source for industrial automation, sensors, soft starters, motor control, and VFD drives and are pleased to include ASG's line of sensors to their product offering.

Alliance Sensors Group, founded by the Schaevitz family, has continued to expand its line of linear position sensors using LVIT Technology™ reaching into the automation and fluid power market places as well as power generation and civil engineering. The LR and LV series of LVIT products are inductive, contactless devices with excellent stroke-to-length ratio giving a clear advantage over resistive potentiometers.

"Alliance Sensors is excited to partner with a sales channel as prominent as AIM Electronics. We feel they can help us target the Automation marketplace in ways we could not handle directly," says John Matlack VP of Sales and Marketing for ASG.

Visit AIM Electronics to find ASG's complete line of products.

**About H. G. Schaevitz LLC Alliance Sensors Group**

Headquartered in Moorestown, New Jersey, H. G. Schaevitz LLC Alliance Sensor Group (<http://www.alliancesensors.com/>) is an LVDT and RVDT sensor manufacturing company offering engineering and application support in solving specific measurement challenges within the power generation, hydraulic, industrial and OEM industries. Combining more than 150 years of sensors experience, our technical and application support staff have extensive experience in providing the right sensor for challenging rotary and position measurement applications. Follow us on Twitter @Alliancesensor1, on our Facebook page, and Linked In.
